Dear Mr. Ferguson:

By letter dated February 7, 1981, we requested that you provide additional information on the annunciator system for the diesel generators at Surry Power Station. You responded with a letter dated May 12, 1981 outlining a modification which would meet the NRC requirements regarding annunciator display of diesel generator conditions and providing other information. Based on our review of the information, we conclude that this matter is resolved.

Sincerely,
