

DEC 10 1981

Virginia Electric and Power Company
ATTN: Mr. R. H. Leasburg, Vice President
Nuclear Operations
P. O. Box 26666
Richmond, VA 23261

Gentlemen:

Subject: Report Nos. 50-280/81-29 and 50-281/81-29

This refers to the routine inspection conducted by Dr. D. M. Montgomery of this office on November 2-5, 1981, of activities authorized by NRC Operating License Nos. DPR-32 and DPR-37 for the Surry facility. Our preliminary findings were discussed with Mr. J. L. Wilson, Plant Manager, at the conclusion of the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors. The Region II Mobile Laboratory was also brought to your site and used by the inspector to make certain independent measurements. The basic purpose of these independent measurements is to verify your capability for analyzing radioactive effluents, and to achieve and maintain comparable methods of analyses between your facility and the NRC. The complete data from these measurements will be reported in a subsequent Inspection Report.

During the inspection, it was found that certain activities under your license appear to violate NRC requirements. This item and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. Elements to be included in your response are delineated in Appendix A.

We have examined actions you have taken with regard to previously identified enforcement matters. These are discussed in the enclosed inspection report.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure(s) will be placed in the NRC's Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

(S)

R. C. Lewis, Director
Division of Resident and
Reactor Project Inspection
