SUBJECT: License Application for INC's THSC under Docket 71-9360

Dear Mr. McKirgan

Industrial Nuclear Company, Inc has recently completed all design qualification testing for its Ten Hole Source Changer (THSC). Following the final design presentation in a pre-application meeting currently scheduled for June 19, 2018, INC will submit a licensing application under Docket 71-9360 that we requested to be open for us in 2011 during the early stages of design development of the THSC. The licensing application should be completed and submitted by September of 2018.

If you have any questions please contact Mike Rose, QA Manager, at 510.352.6766.

Thanks,
