Docket Nos. 50-280 and 50-281

Virginia Electric and Power Company
ATTN: Mr. W. L. Stewart
Vice President - Nuclear Operations
Post Office Box 26666
Richmond, Virginia 23261

Gentlemen:

By letter dated January 31, 1984, the Division of Licensing (DL) staff informed your Company of their approval of your application dated August 25, 1983 and issued Amendment Nos. 94 and 93 to Facility Operating License Nos. DPR-32 and DPR-37. This application proposed changes to the Technical Specifications (TS) to remove certain snubbers and to add the Supervisor of Health Physics for the Surry Power Station Unit Nos. 1 and 2. A Class III fee (\$4,000) and a Class I fee (\$400) were remitted with your application pursuant to 10 CFR 170.22. By letter dated October 4, 1983, you remitted a Class II fee (\$1,200) and a Class I fee (\$400) in response to our request for additional fees dated September 15, 1983.

It has come to our attention that Surry Unit Nos. 1 and 2 share a common set of Technical Specifications. Therefore, we have determined that a second duplicate Class I fee (\$400) for your August 25 application is not appropriate since the issuance of Amendment Nos. 94 and 93 only involved a single administrative effort because of the commonality of the TS. We have concluded that an exemption pursuant to 10 CFR 170.11(b) from the fee requirements is authorized by law, and such exemption is otherwise in the public interest and is hereby granted for the second Class I duplicate fee remitted for your August 25 application. Consequently, we have concurrently authorized the Division of Accounting and Finance to refund the sum of \$400 to your Company.

Sincerely,

Original Signed by
Wm. O. Miller
