Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY
SURRY POWER STATION UNIT NOS. 1 AND 2
APPENDIX R - FIRE PROTECTION

In our July 6, 1984 letter (Serial No. 381), we committed to submit the Phase 2 information for Surry's Appendix R fire protection reanalysis by September 14, 1984. The Phase 2 information consisted of descriptions of modifications and exemption requests not included in the July 6 letter. Many of those items were still pending resolution of similar concerns already discussed with the NRC on North Anna.

Because of resource limitations, the effort necessary to support Appendix R work for North Anna, and the impact of the resolution of several Appendix R issues at North Anna on Surry, the Surry Phase 2 information will now be submitted no later than November 30, 1984. This change has been discussed with the NRC Surry Project Manager.

Please contact us if you have any questions regarding this matter.

Very truly yours,

W. L. Stewart
