

ENCLOSURE 1

NOTICE OF VIOLATION

Virginia Electric and Power Company
Surry Power Station

Docket Nos. 50-280, 50-281
License Nos. DPR-32, DPR-37

The following violation was identified during an inspection conducted on April 29-May 2, 1985. The Severity Level was assigned in accordance with the NRC Enforcement Policy (10 CFR Part 2, Appendix C).

10 CFR 50.54(q) requires that nuclear power reactor licensees follow and maintain in effect emergency plans which meet the requirements of Appendix E to 10 CFR Part 50 and the planning standards of 10 CFR 50.47(b). 10 CFR 50.47(b)(10) requires that the licensee's emergency plans include a range of protective actions, consistent with Federal guidance, for the plume exposure pathway EPZ for emergency workers and the public.

The Federal guidance on protective actions to be recommended to offsite officials for a General Emergency is presented in Appendix 1 to NUREG-0654/FEMA-REP-1, Rev. 1, entitled "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants." This guidance is clarified by IE Information Notice No. 83-28, "Criteria for Protective Action Recommendations for General Emergencies." Both of these documents inform the licensee that sheltering of the populace to 2 miles in all directions and 5 miles downwind is to be recommended to offsite authorities promptly upon declaration of a General Emergency.

Contrary to the above, the licensee's emergency plan implementing procedures did not, under some circumstances, provide clear direction to the user to issue a protective action recommendation upon declaration of a General Emergency.

This is a Severity Level IV violation (Supplement VIII).

Pursuant to 10 CFR 2.201, you are required to submit to this office within 30 days of the date of this Notice, a written statement or explanation in reply, including: (1) admission or denial of the alleged violation; (2) the reasons for the violation if admitted; (3) the corrective steps which have been taken and the results achieved; (4) corrective steps which will be taken to avoid further violations; and (5) the date when full compliance will be achieved.

Security or safeguards information should be submitted as an enclosure to facilitate withholding it from public disclosure as required by 10 CFR 2.790(d) or 10 CFR 73.21.

Date: MAY 29 1985
