Subject: Plant Drawings for the SEP  
R.E. Ginna Nuclear Power Plant  
Docket No. 50-244

Dear Mr. Ziemann:

In response to your letter of June 26, 1978 we are providing drawings reflecting structures, systems and components at Ginna Station. These represent the current "as built" drawings for Ginna Station. Since there are a number of plant modifications underway, we encourage the Staff to discuss their reviews with us to the extent possible in order to ensure that up-to-date information is being used. The attachment to this letter lists the drawings being provided and we are enclosing one aperture card and three copies of each print. We expect to send electrical circuit schedules within the next month. If there are any questions, please contact us.

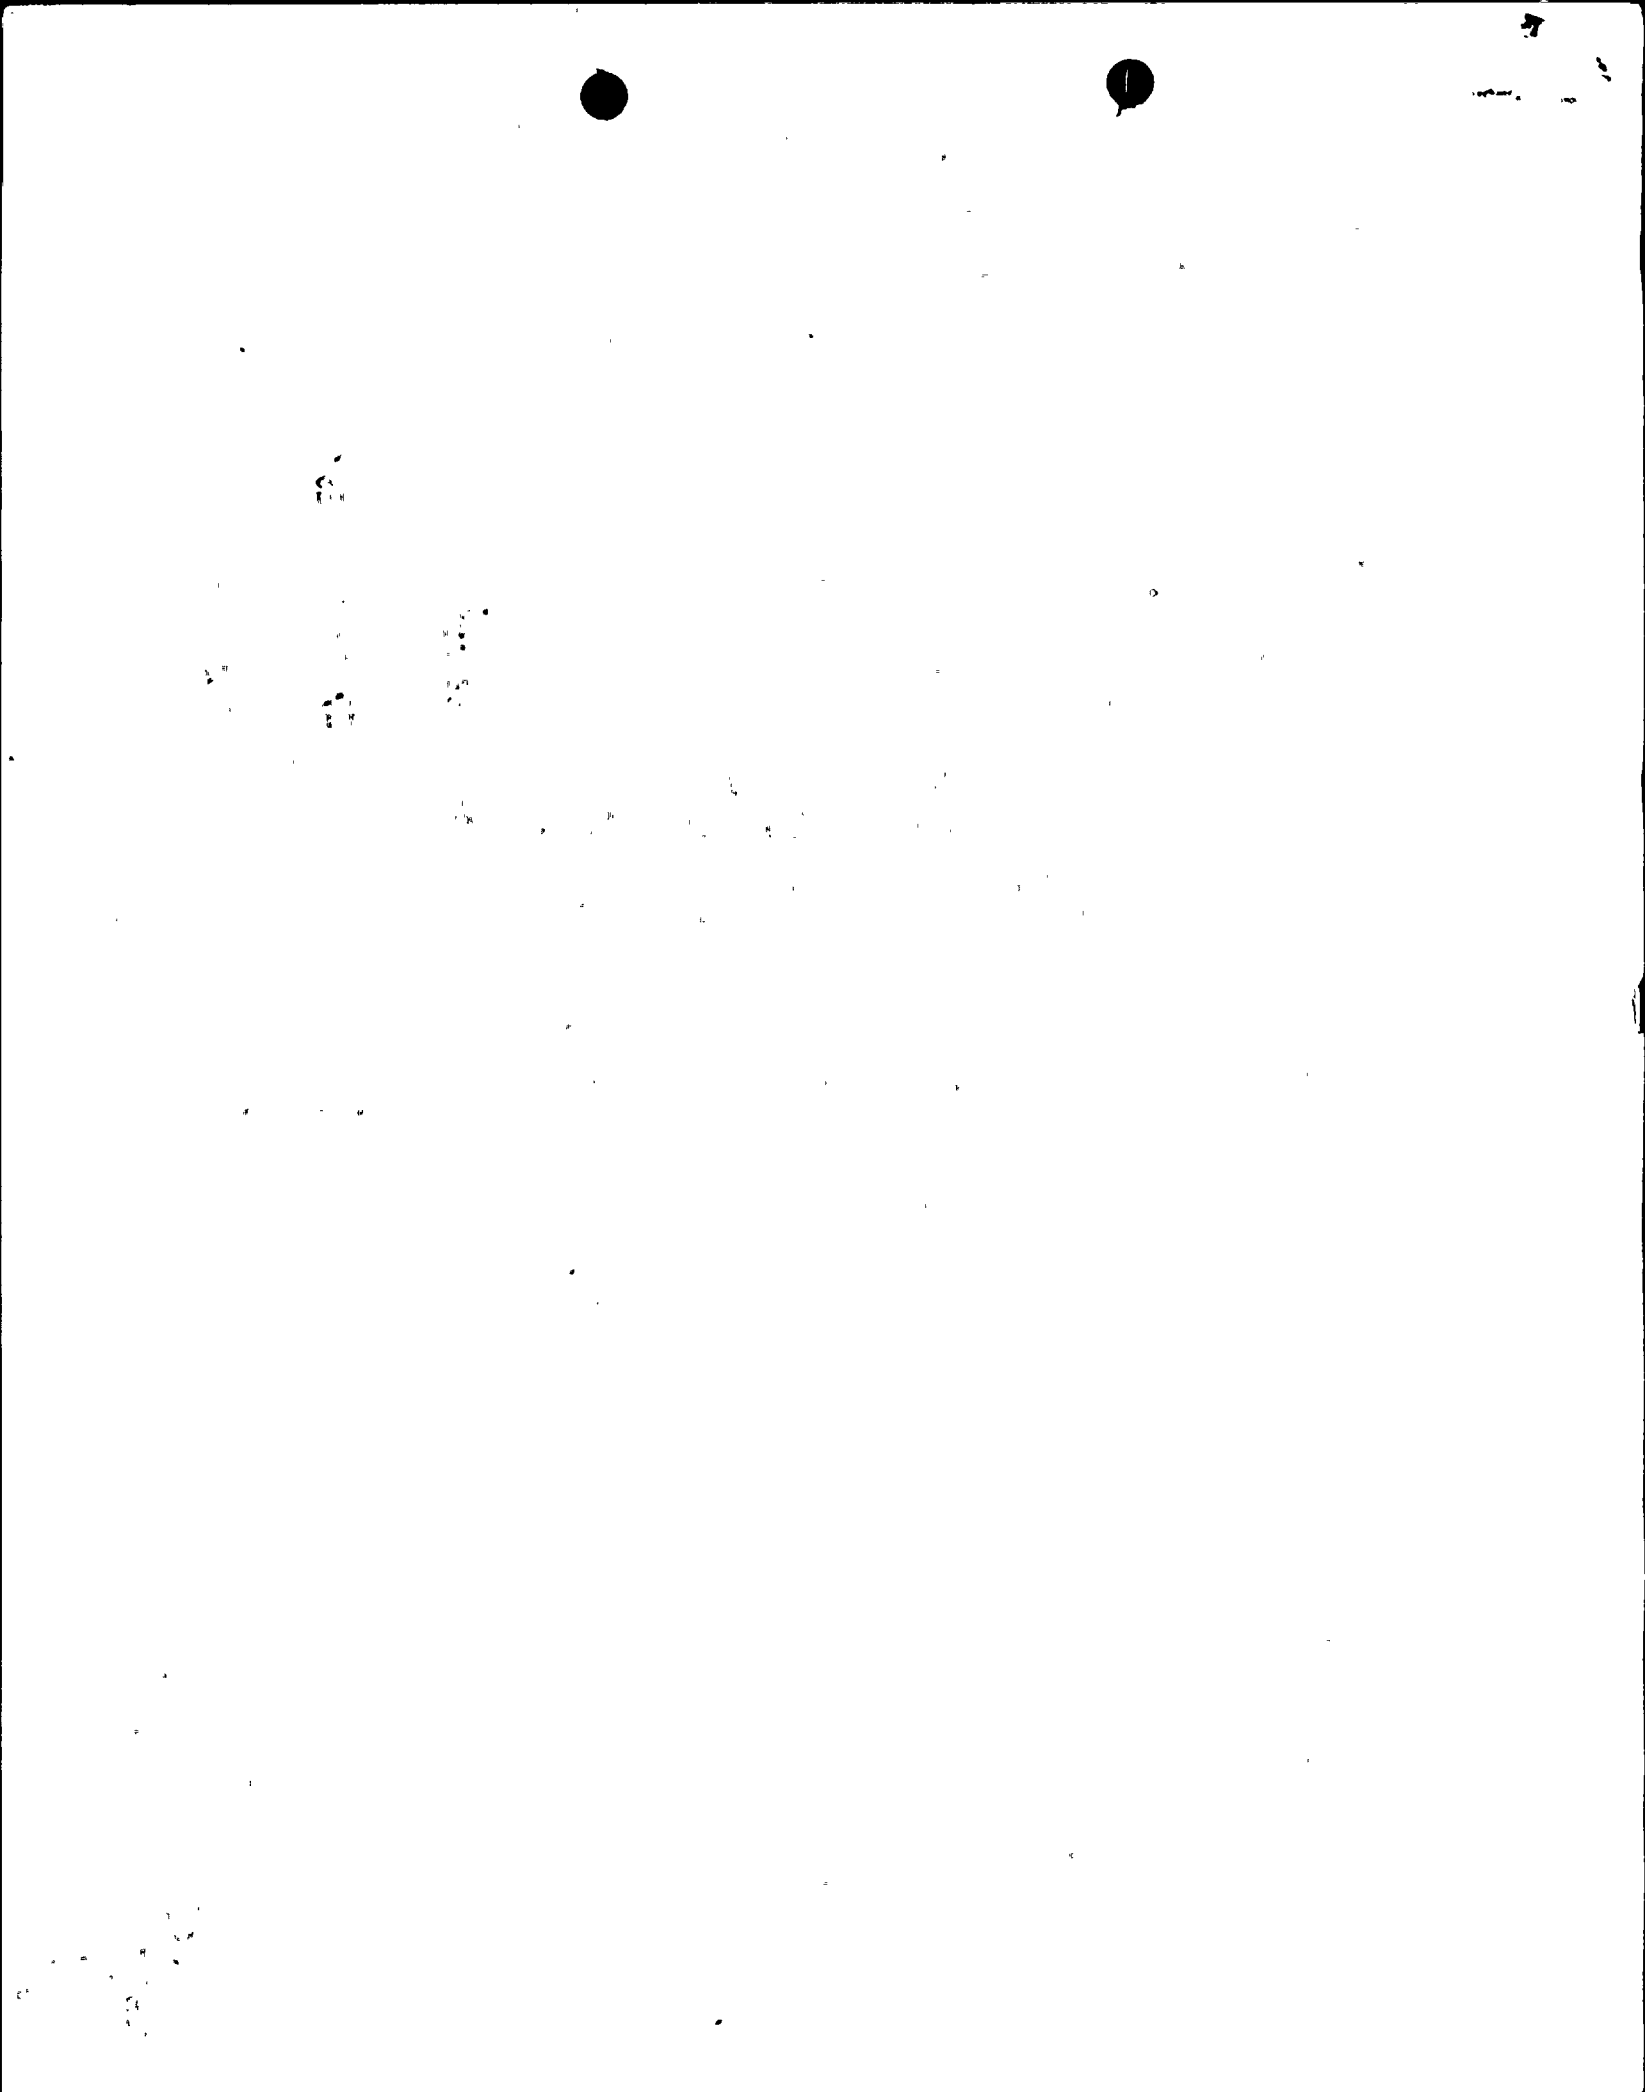

Very truly yours,

*L.D. White, Jr.*
