Nuclear Operations
P. O. Box 26666
Richmond, VA 23261

Gentlemen:

SUBJECT: SURRY UNIT 2 ILRT

During the period of May 31 through June 10, 1985, members of my Test Program staff witnessed the preparation for, and successful completion of your 10 CFR 50 Appendix J test at Surry Nuclear Power Station Unit 2. They credited the successful testing to the diligent work of your engineering and operations personnel. In addition, the level of management support devoted to the program resulted in noticeable improvement and the overall project was fully successful.

Please convey to your staff my appreciation and congratulations for a job well done.

Sincerely,
