Washington, DC 20555-0001

We would like to inactivate our registration certificate for the model RSS-12, number NR396-D-102-B

The number of this model sold and still in service is estimated at 80.

We will still provide service on these devices under license 030-38931.

We are no longer making this device or distributing them. We have not sold/distributed this device in more than two (2) years.

No changes were made to the product since it's design or last amendment.

Our distribution license, 06-21253-02G, was terminated September 21, 2016 (docket number 030-20101).

A handwritten signature in black ink, appearing to read "Craig Godwin", is written over a faint, illegible stamp.

Washington, DC 20555-0001

We would like to inactivate our registration certificate for the model RSS-06,
number NR396-D-101-B

The number of this model sold and still in service is estimated at 97.

We will still provide service on these devices under license 030-38931.

We are no longer making this device or distributing them. We have not sold/distributed this
device in more than two (2) years.

No changes were made to the product since it's design or last amendment.

Our distribution license, 06-21253-02G, was terminated September 21, 2016 (docket number
030-20101).

A handwritten signature in black ink, appearing to read "Craig Godwin", is written over a faint, circular official stamp.
