License Nos. DPR-32
DPR-37

Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY
SURRY POWER STATION UNIT NOS. 1 AND 2
REACTOR VESSEL MATERIALS SURVEILLANCE PROGRAM

We are currently performing a thorough programmatic review of our Reactor Vessel Materials Surveillance Programs (RVSPs) for the North Anna and Surry Power Stations in light of the most recent versions of 10 CFR 50 Appendices G and H, American Society for Testing and Materials Standard E-185 and 10 CFR 50.61 (Fracture Toughness Requirements for Protection Against Pressurized Thermal Shock Events). Once the review is complete, we intend to submit an updated RVSP for Surry Units 1 and 2 that is consistent with the latest revision of 10 CFR 50 Appendix H. The Surry updated RVSP will be submitted by April 15, 1986.

Very truly yours,

W. L. Stewart
