Re: Crane Counterweight Drop
St. Lucie Unit No. 1
(Control No. H00556F2)

The subject report was scheduled for submittal on September 5, 1975. Evaluation of the repairs to the RAB roof are still on-going. Accordingly, FPL requests postponement of the final report until October 15, 1975. This extension was discussed with and noted by Mr. Foster of your office on September 4, 1975.

Yours very truly,

Robert E. Uhrig
