General Comment

I have studied the dangers of nuclear waste for over thirty years. My request is very simple:

Keep all nuclear waste under radioactive regulatory control-no VLLW!
Dont mix it with hazardous waste or regular trashisolate it!
Don't pretend it's not radioactive!

Keep nuclear waste under control--not in landfills, incinerators, consumer goods, zippers, baby toys, hair pins, etc..

Help protect us, our communities and future generations!
