Dear Mr. Allen:

Your letter dated April 25, 2018 (Reference 5) requested additional information for the review of modifications to the NPC CoC and requested Global Nuclear Fuel - Americas (GNF-A) provide this information by June 1, 2018. After our call on April 24, 2018 (Reference 4), we have evaluated several options and determined the best approach is to revise and resubmit a portion of the NPC package safety analysis report (SAR) with the requested information incorporated.

Revising applicable chapter(s) and appendices of the NPC SAR will require additional time. As a result, a revised SAR with the requested information will be provided by the end of October 2018.

Please contact me if you have any questions or would like to discuss this matter further.

Sincerely,

  
Scott P. Murray, Manager  
Facility Licensing
