TOPICAL REPORT VEP-FRD-23
WITHDRAWAL OF REQUEST FOR NRC REVIEW

As requested by Mr. Herbert N. Berkow in his letter of February 20, 1986, Virginia Electric and Power Company has reviewed its internal requirements and has determined there is no longer a need for NRC review of topical report VEP-FRD-23. Our core thermal-hydraulic analysis capability is based on the COBRA Code as documented in the NRC approved topical report VEP-FRD-33A. We therefore request that VEP-FRD-23 be removed from the active review list and any review activities be terminated.

Very truly yours,

W. L. Stewart
