General Comment

I live in San Clemente. My kids live in San Clemente, and will be starting their families here. I cannot even imagine that nuclear waste is stored here at all, with so many people nearby. Then this proposal to just store it in cannisters that will only last 40 years? Insane on top of insane. Please decide to find another storage place for this dangerous waste. At the very least please upgrade the storage to provide some sort of secure storage past 40 years, with ways to check on it as proposed within this petition.

Respectfully submitted,

Carolyn Jahan
