SUBJECT: NOMINATION OF YAMIR DIAZ-CASTILLO AS AN ALTERNATE TO THE
STANDARDS COMMITTEE ON QUALIFICATIONS FOR AUTHORIZED
INSPECTION

Dear Mr. Wielgoszinski:

I would like to nominate Mr. Yamir Diaz-Castillo as the authorized Nuclear Regulatory Commission (NRC) alternate representative on the Standards Committee on Qualifications for Authorized Inspection, which reports to the Board of Conformity Assessment. Mr. Diaz-Castillo is currently a Reactor Operations Engineer in the Office of New Reactors and is responsible for quality assurance reviews and inspections of nuclear vendors and applicants for new reactor licenses and design certifications. In addition, Mr. Diaz-Castillo is a technical representative in the 10 CFR 50.55a, "Codes and Standard," rulemaking process. Furthermore, Mr. Diaz-Castillo serves as an NRC representative on the ASME Section III Working Group Duties and Responsibilities.

In accordance with the Office of Management and Budget Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence should be addressed to:
