Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-280/87-12 AND 50-281/87-12

In the subject report, an incorrect statement was transmitted concerning one of the inspection findings, Inspector Follow-up Item 50-280, 281/87-12-03. The discussion should have indicated that action was taken to update the old procedures at the time of the inspection, and continued maintenance of the documents would be reviewed during future inspections. Enclosed is a corrected page. Please insert the new page in your copy of NRC Inspection Report Nos. 50-280, 281/87-12.

We regret any inconvenience these corrections may have caused you.

Sincerely,

Original Signed By  
D. M. Collins
