Cynthia,

I would like to confirm that Powertech can provide support, site access, and Tribal Reimbursements for the additional participation of the Lower Brule Sioux Tribe for the upcoming site survey at Dewey-Burdock, as established by NRC's approach provided March 16, 2018 and consistent with Powertech's responses on the matter.

Sincerely,

John

Subject: [External_Sender] Upcoming Site Survey

Cinthya, Kellee, and Diana,

I trust this finds you well.

We would like to reach out with respect to the upcoming site survey in June. As we move closer to this date, further details and specifics will greatly assist Powertech in its preparation. Specifically, have you received any responses to the April 12, 2018 NRC letters sent to the Tribes that would provide further details on which Tribes will be attending the site survey, the number of representatives from each Tribe that will be attending the site survey or any other information that will help us in our preparation?

Thank you.

John
