Gentlemen:

SUBJECT: SURRY POWER STATION RADIOLOGICAL EMERGENCY PLAN REVIEW DOCKET NOS.  
50-280 AND 50-281

We have completed our review of the June 11, 1987, revision to the Surry Power Station Radiological Emergency Plan.

Our review indicated that the changes made to your Emergency Plan were consistent with the planning standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR Part 50.

Please be reminded that 10 CFR 50.54(q) requires NRC approval of any changes to your Plan which may decrease the effectiveness of the Plan. However, if your safety review indicated no decrease in the level of emergency preparedness, then changes can be made without NRC approval. In all cases, you should furnish copies of each proposed change to the NRC in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR 50, Appendix E, Section V.

Should you have any questions regarding this letter, please contact Mr. Thomas R. Decker of our staff at (404) 331-2559.

Sincerely,

ORIGINAL SIGNED BY  
DOUGLAS M. COLLINS
