

VIRGINIA ELECTRIC AND POWER COMPANY  
RICHMOND, VIRGINIA 23261

50-280

W. L. STEWART  
VICE PRESIDENT  
NUCLEAR OPERATIONS

February 1, 1988

United States Nuclear Regulatory Commission  
Attention: Document Control Desk  
Washington, D.C. 20555

Serial No. 87-778  
NO/RCB:jmj

Gentlemen:

COMMENTS ON PROPOSED POLICY STATEMENT ON  
INTEGRATED SCHEDULES FOR IMPLEMENTATION  
OF PLANT MODIFICATIONS

Virginia Electric and Power Company appreciates the opportunity to comment on the Commission's proposed policy statement on Integrated Schedules for Implementation of Plant Modifications (52FR45344 of November 27, 1987). We have been active in the development of Integrated Schedules for our power stations at North Anna and Surry. A request for license amendment was submitted for North Anna Power Station on December 11, 1985 and for Surry Power Station on December 31, 1985.

Virginia Electric and Power Company concurs with the comments provided by the Nuclear Management and Resources Council (NUMARC). We look forward to participating in further dialogue between NUMARC and the Commission in the efforts to develop the integrated scheduling process. We believe this process will make a major contribution toward understanding of issues relative to both Commission and utility identified plant modifications.

Very truly yours,

W. L. Stewart
