Wes,

Blow is the item that the staff is going to need docketed to complete the SER for LAR 18-003:

1. We still believe that the licensee should include a statement that specifically says that if they go to MPT they should remain with MPT for the rest of the life of the battery. Otherwise this is not aligned with the current NRC staff position and the licensee has to provide justification to the contrary.

Please provide me a schedule for this docket item or a document that is already docketed that contains this statement.

Pete
