Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-280/93-15 AND 50-281/93-15

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by Mr. M. Branch of this office on June 6 through July 3, 1993. The inspection included a review of activities authorized for your Surry facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The enclosed Inspection Report identified activities that violated NRC requirements that will not be subject to enforcement action because the licensee's efforts in identifying and/or correcting the violation meet the criteria specified in Section VII.B of the Enforcement Policy.

Pursuant to 10 CFR 2.790 of the NRC's "Rules of Practice", a copy of this letter and its enclosure will be placed in the NRC Public Document Room.
