50-281
License Nos. DPR-32
DPR-37

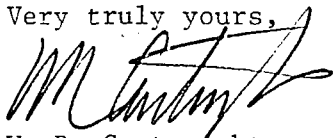

Attention: Mr. J. F. Munro

Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY
SURRY POWER STATION UNITS 1 AND 2
LICENSED OPERATOR REQUALIFICATION PROGRAM:
COMPLIANCE WITH 10 CFR 50.54 (i-1)

This letter is to confirm the verbal notification of your office (H. McCallum/M. Morgan of 10/28/88) that a portion of the 1988 Licensed Operator Requalification Program originally scheduled to occur during the fourth quarter of 1988 has been deferred until January and February, 1989. The specific material rescheduled is the Annual Comprehensive Written Examinations. The examinations are currently in progress and scheduled to be completed in February 1989. This change in schedule did not change the scope of the 1988 operator requalification program or decrease the scope of the 1989 operator requalification program.

Very truly yours,

W. R. Cartwright

cc: Mr. W. E. Holland
NRC Senior Resident Inspector
