This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by Nick Economos on August 15, 16, 30-31, and September 1, 1989. The inspection included a review of activities authorized for your Surry facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed Inspection Report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.
