Gentlemen:

Thank you for your supplemental response of March 27, 1990, to our Notice of Violation issued on April 8, 1986, concerning activities conducted at your Surry facility. We have evaluated your response and found that it meets the requirements of 10 CFR 2.201. Furthermore, we concur with your actions to reduce the second engineering review of completed surveillance tests, which was completed as part of your initial corrective action.

We appreciate your cooperation in this matter.

Sincerely,
