DPR-37

Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY
SURRY POWER STATION UNITS 1 AND 2
NORTH ANNA POWER STATION UNITS 1 AND 2
REVISION TO NUREG-0020

NUREG-0020, "Licensed Operating Reactors Status Summary Report" contains monthly and cumulative operating data (e.g., unit availability factor). However, we have determined that the data presented in NUREG-0020, for North Anna Units 1 & 2 and Surry Units 1 & 2, is not consistent with our monthly operating reports. Based on our review of previous NUREG-0020 revisions, these discrepancies date back to the original startup dates for our units. Therefore, we are requesting that the monthly and cumulative data in NUREG-0020, for the North Anna and Surry units, be revised to be consistent with our current monthly operating reports. Attached are the appropriate pages from our most recent operating reports to assist you in updating the data for the North Anna and Surry units.

Should you have questions, please contact us at your earliest convenience.

Very truly yours,

W. L. Stewart
Senior Vice President - Nuclear

26339
