SUBJECT: QUALITY ASSURANCE PROGRAM APPROVAL FORM FOR FS-QA-PMD-001,  
REVISION 4, "ORANO FEDERAL SERVICES QUALITY ASSURANCE  
PROGRAM DESCRIPTION"

Dear Mr. Lloyd:

Enclosed is the Quality Assurance (QA) Program Approval for Radioactive Material Packages No. 0938, Revision No.5, in response to your letter dated May 08, 2018 (Agencywide Documents Access and Management System Accession No. ML18130A605). This Approval satisfies the requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) 71.17(b) and 71.101(c) for a QA Program approved by the U.S. Nuclear Regulatory Commission (NRC), as well as, approval of those changes to your quality assurance program that are considered reductions in commitments to the NRC prior to implementation as required by 10 CFR 71.106.

In addition, 10 CFR 71.106 requires that changes to your QA program that do not reduce commitments must be submitted to the NRC every 24-months, with the reporting period starting on the date your revised Form 311 was approved. Please note that if you did not make any changes to your QA program in the preceding 24-month period, you are required to report that no changes were made. Termination of your materials license does not cause this Approval to be automatically terminated. If you wish to renew, amend, or terminate this Approval, please request it in writing.

This letter also serves as a reminder that if you are using or planning to use an NRC-approved packaging, you must be registered for use of that packaging with NRC. Registration for use of NRC-approved packaging should be made pursuant to 10 CFR 71.17(c)(3).

C. Lloyd
