Re: Docket ID NRC-2018-0052 Holtec International's HI-STORE Consolidated Interim Storage Facility Project for Spent Nuclear Fuel in Lea County, New Mexico

Dear NRC Representative: WE DO NOT CONSENT!

I am speaking as a local NM citizen from Santa Fe, and I am absolutely opposed to this proposal to bring this hi-level nuclear waste to New Mexico. There are many problems with the proposal, which seems to be rushed and sold to the local communities without having many questioned answered. I see no benefits to the communities in NM, only many risks for accidents, health problems, negative impacts on the local economies. This is not fair to those most impacted. We in NM have already paid a high price as a nuclear sacrifice zone. Please consider these remarks.
