COMMENT (#134)
PUBLICATION DATE: 3/30/2018
CITATION: 83 FR 13802

There has never been a transportation accident that released high-level nuclear material. But opponents have warned that these shipments could be targets of terrorists attacks and that the consequences could be....CATASTROPHIC!!!

Multiple organizations have mobilized to stop HOLTEC from turning New Mexico into the only High Level Waste dump in the United States. Help us stop this outrageous power move by a for profit company determined to crisscross the nation transporting high level waste to New Mexico. We have provide a sample letter for your convenience. Send it today. Or call us we will pick it up and mail it for you. Get involved before it is too late!

**Southern New Mexico
Alliance f
or Environmental
Strategies**

We are a group of citizens from Eddy, Lea, Otero and Chaves counties concerned about the future of our Southern New Mexico Communities. We are working together to create awareness about environmental and health issues in our communities and to build **VOICES of NO CONSENT**

RE: Docket ID NRC-2018-0052; Holtec International's HI-STORE CIS Facility for Spent Nuclear Fuel, Lea County, New Mexico

NRC:

I do not consent to New Mexico becoming a national radioactive waste dumping ground for all the high level nuclear waste from power plants nationwide. I do not consent to transporting up to 10,000 canisters of highly radioactive waste through thousands of communities nationwide.

I request a 60-day extension of time for this comment period and an opportunity for all communities along the transportation route to meet with the Nuclear Regulatory Commission.

Sincerely,
Judy Kaul
