RE: Docket ID NRC-2018-0052 Holtec International's HI-STORE Consolidated Interim Storage Facility Project for Spent Nuclear Fuel in Lea County, New Mexico

Dear NRC Representative: WE DO (NOT CONSENT)

I'VE BEEN AROUND ROSWELL FOR 70 YEARS AND THERE IS NO SAFE AREA AROUND THIS STUFF. OUR OIL DEPOT IN N.M. COULD BE AFFECTED ALONG WITH OUR UNDERGROUND WATER SUPPLY'S.
JUST NOT SAFE

Dear NRC Representative: WE DO NOT CONSENT!

Do not risk our lives for money! Do NOT threaten other revenue by allowing SENM to become the nations High-Level Radio active waste nuke dump!! DO NOT MAKE LEA COUNTY A SACRIFICE ZONE!
WE DO NOT CONSENT!!

To the Nuclear Regulatory Commission:

I do not consent to New Mexico becoming a national radioactive waste dumping ground for all the high-level nuclear waste from commercial power plants nationwide. I do not consent to transporting up to 10,000 canisters of highly radioactive waste through thousands of communities nationwide. I support the alternative of Hardened On-Site Storage at or near reactor sites.

Dear NRC Representative: WE DO NOT CONSENT!

Dumping Radioactive Nuclear waste in our backyard is at a rudimentary sense a BAD IDEA. I'm sure there are ~~arguer~~ arguments in favor, about ⁱⁿ safeguards but do we really want this in our backyard?

RE: Docket ID NRC-2018-0052 Holtec International's HI-STORE Consolidated Interim Storage Facility Project for Spent Nuclear Fuel in Lea County, New Mexico

Dear NRC Representative: WE DO NOT CONSENT!

PLEASE DO NOT approve this project! Our area is already overrun with nuclear waste and uranium enrichment! we DO NOT need any more hazardous materials near our communities. Please put our citizens well being first instead of money! The planned site is not a safe environment for this type of disposal!

RE: Docket ID NRC-2018-0052 Holtec International's HL-STORE Consolidated Interim Storage Facility Project for Spent Nuclear Fuel in Lea County, New Mexico

Dear NRC Representative: WE DO NOT CONSENT!

I oppose the Radioactive Dumping Site because the ground is already unstable from fracking in the area. New Mexico is tired of being the dump for the rest of the U.S.
