I do not consent to Holtec International/Eddy-Lea Energy Alliance, the rest of the nuclear power industry, the U.S. Nuclear Regulatory Commission (NRC), and the U.S. Dept. of Energy (DOE), rushing into *de facto* permanent surface storage “parking lot dumps” (so-called “centralized” or “consolidated interim storage facilities,” CISFs, a.k.a. Monitored Retrievable Storage sites, or MRS), in order to expedite the transfer of title, liability, and interim storage costs, from the nuclear utilities that profited from the generation of highly radioactive wastes, onto the backs of taxpayers and/or ratepayers.
