Subject: Letter dated May 29th re: NRC Lic No. 21-03210-01 and letter dated May 30th re: NRC Lic No. 21-01190-05 - no action will be taken

Importance: High

Good afternoon,

You submitted two letters discussing the potential name change for the subject licenses listed above and indicated that the final name had not been determined nor had any legal action been completed on changing the name of these facilities. In addition, you also requested that your name be changed on both licenses and you submitted an illegible copy of your driver's license for License No. 21-01190-05 as evidence of your name change.

Please be advised that we are not taking any action related to either license at this time. Submit your requests to change the name of these institutions once the name has been legally changed. You will need to submit formal evidence of the name change and provide confirmation that the name change did not constitute an ownership change. In addition, in order to change your name on the subject NRC licenses, you will need to provide legible legal documentation that your name was changed.

If you have further questions, please let me know.

Thank you – Patty Pelke
