**Week Ending June 1, 2018**

Freedom of Information Act (FOIA) and Privacy Act Requests and Appeals Received During the Period of May 29 – June 1, 2018, as submitted by requester

Communication records sent to and from the named individuals and entities regarding investments, tax credits and/or any other policy decision related to the Bellefonte Nuclear Plant in Hollywood, AL, from January 20, 2017, to the date that his FOIA request is processed	NRC-2018-000549
Records pertaining to the 10 variety of items, as specified	NRC-2018-000550
Referred records of Government Accountability Office's (GAO) working papers for the GAO-14-323 report	NRC-2018-000551

**Office of Nuclear Reactor Regulation (NRR)**  
**Items of Interest**  
**Week Ending June 1, 2018**

**Oyster Creek Nuclear Generating Station Submittal of the Post-Shutdown Decommissioning Activities Report**

On May 21, 2018, Exelon submitted its Post-Shutdown Decommissioning Activities Report (PSDAR) for Oyster Creek Nuclear Generating Station in accordance with 10 CFR 50.82 and an update to its Spent Fuel Management Plan (Agencywide Documents Access and Management System Accession Nos.: ML18141A775 and ML18141A486). The PSDAR indicates the licensee selected the SAFSTOR decommissioning option and provides the U.S. Nuclear Regulatory Commission (NRC) and the public a general overview and schedule of the licensee's proposed decommissioning activities, a site specific decommissioning cost estimate, the projected cost of managing irradiated fuel, and addresses environmental impacts associated with the decommissioning option selected. The PSDAR will help the NRC plan for inspections and make decisions about its decommissioning oversight activities. The staff is preparing to publish the PSDAR for comment in the Federal Register and is planning to conduct a public meeting near the plant in July.

**National Organization for Test, Research, and Training Reactors Public Meeting**

On May 22, 2018, the staff held a public meeting with the National Organization for Test, Research, and Training Reactors (TRTR). Significant topics of discussion included upcoming rulemakings, operator licensing exams, digital instrumentation and control license amendment requests, quality assurance programs related to transportation, and potential topics for the upcoming TRTR Annual Conference in October. The Nuclear Energy Institute participated in the meeting, emphasizing the value of the staff creating a website that would list rulemakings affecting the TRTR community.

**SHINE Medical Technologies Public Meeting**

On May 23 and 24, 2018, a public meeting was held between SHINE Medical Technologies, Inc. (SHINE) and the staff. The purpose of this meeting was to discuss topics related to construction planning, licensing strategy, and the results of a preliminary hazards analysis associated with the SHINE medical isotope production project. This meeting served to inform the staff of SHINE's significant facility design changes and schedules for beginning construction and submitting an operating license application. In preparation for fiscal year (FY) 2019 licensing and oversight activities, the staff will continue to meet with SHINE in pre-application and on-site scoping meetings throughout the remainder of FY 2018.

**Office of the Secretary (SECY)**  
**Items of Interest**  
**Week Ending June 1, 2018**

Commission Correspondence

1. Letter to the Honorable Lamar Alexander and Mike Simpson submits the NRC's monthly Congressional Status Report for April 2018, dated May 24, 2018.
2. Letter to Ms. Neomi Rao Office of Management and Budget submits the NRC's Statement of Regulatory Priorities for Fiscal Year 2019, dated May 24, 2018.
