Subject: [External_Sender] June 6 NRC Clinch River Site Visit
Attachments: NRC Environmental Visit Itinerary 05-23-18.pdf

All,

Attached is the itinerary for the June 6 NRC Environmental Visit to TVA's Clinch River Site. We will meet at the Melton Hill Dam parking lot closest to the dam at 0800 to begin the tour. As noted, the tour will include observation of Alternate Site 8 from the Melton Hill Dam overlook, drive through Alternate Site 2 and the potential barge landing area, and then begin a tour of the Clinch River Site with stops as noted on the itinerary. The itinerary is only a guide and can be adjusted as needed and/or as discussions or weather dictate. It is our understanding Mr. Meyer will join us at the CRN site around 1000.

Please wear sturdy hiking boots/shoes, long pants, and a long sleeve shirt and hat are recommended. Hardhats are not required for this visit. A safety briefing and pre-job brief will be held at the Melton Hill dam.

The Melton Hill Dam is located off Interstate 40 West from Knoxville, exiting at state road 95 North, exit 364. Proceed north on 95 about 1.5 miles and turn right onto Woodlawn Road (at the Melton Hill Dam sign) prior to crossing the Clinch River bridge. The parking lot to meet in is the second lot on the left.

If you have any questions prior to the visit, please pass them through Allen Fetter. If you have any questions on the day of the visit, my cell number is included below.
