## General Comment

Dear Regulators,

I'm a concerned citizen who cares deeply for the Turkey Point reactors. Turkey Point has been extremely helpful in providing energy for southern Florida and it would be disastrous for it to not be renewed. Turkey Point is one of the most nonpolluting energy sources we have so we must do all we can to keep it up and running for as long as is feasible. I urge you to recommend Turkey Point get the license renewal it needs so it can keep doing the good work of providing electricity to Florida for years to come.
