SUBJECT: WESTINGHOUSE ELECTRIC COMPANY, LLC. - ORDER APPROVING
INDIRECT TRANSFER OF CONTROL OF LICENSES

Dear Mr. Sweeney:

The U.S. Nuclear Regulatory Commission (NRC) reviewed the application from Westinghouse Electric Company LLC (Westinghouse) requesting consent from the NRC to the indirect transfer of control of materials and export licenses. The application was transmitted by letter dated March 21, 2018, and supplemented by letters dated April 10, April 26, April 27, and May 24, 2018. Westinghouse submitted its application pursuant to sections 70.36 and 110.50 of Title 10 of the *Code of Federal Regulations* (10 CFR). The NRC determined that the proposed indirect transfer of control is in accordance with the Atomic Energy Act of 1954 and hereby approves the indirect transfer of control, which will not change Westinghouse's operations, structure, locations, facilities, equipment, or procedures associated with licensed activities. A Safety Evaluation Report documenting the basis for the NRC's findings is provided in Enclosure 1. An order approving the indirect transfer of control is provided in Enclosure 2.

The order will be published in the *Federal Register*. This action closes activities under Enterprise Project Identifier L-2018-LLM-0001.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at: <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
