Good Afternoon Mr. Brandon,

We are in the process of completing our review of mb microtec’s amendment request, dated April 19, 2018. In reviewing mb microtec’s sealed source and device registration we noted that in their QA/QC program, mb microtec committed to perform a visual inspection for the “H-3” and “mbm” labeling on the timepiece. Please confirm that mb microtec will continue to perform these visual inspections for “H-3” and for the new branding “trigalight®”.

Thank you,
