Mr. Barwis, to continue our review of your amendment request to add Dr. Kaye, we need the following additional information:

1. The preceptor attestation statement for uses authorized under 10 CFR 35.392 is incomplete. Specifically, the Second Section and Third Section are incomplete. Please submit a revised preceptor attestation statement for Dr. Kaye, with all sections completed. The statement may be completed by either Dr. Rosenberg from Hartford Hospital or by Dr. Leary at your facility.
2. It is noted that your letterhead includes "41" in your street address. Please clarify if you would like your mailing address to include 41 Brewster Road.
3. Please provide a possession limit for each radionuclide possessed under 10 CFR 35.400. For example, will 1000 mCi of I-125 and 500 mCi of Cs-131 suffice?

Please submit the above information to my attention either via signed pdf or fax to 610-337-5269. Please reference Mail Control No. 608739 in your response. Thank you for your assistance,
