Subject: RAI, Area Surveys

Discussion: I asked Mr. Church about normal area surveys. He said they have been doing areas surveys each quarter in the area that the licensed material was stored. They also have an air monitor in the area. He does not remember seeing any wipe which is greater than 1000 dpm. All units were sealed sources and he does not know of any which had leaked during the period of the license.

Action Required: Terminate the license
