Subject: Def. Reponse Letter Dated May 22, 2018

(NOTE: This will be used as the Documents Title in ADAMS)

I spoke with Ms. Sciole regarding the amendment to add Y-90 SIR-Spheres to their license and the deficiency response received May 22, 2018.

I reminded her of the requirement to have an authorized user sign the Written Direction at the completion or termination of the treatment. I told her I would add this reminder in the cover letter to avoid waiting for a confirmation. I also pointed out that there was a typo in item #4 of their reply. She promised to fix both and have the procedures updated to reflect the changes.

Amendment will be processed as they are ready to begin treatment on a young patient.
