Hello Ron,

We have reviewed the changes that were made to the Draft License and find them all acceptable.

Thank you.

Mark:

Please review the attached *draft* LA #5. We are proposing the following changes to the license:

1. We changed licensee name from Hydro Resources, Inc, to NuFuels, Inc., in "1." in the Licensee title block.
2. Even though NuFuels is a Delaware company, the functional office for mail delivery is located in Montrose Colorado, therefore, the license address will not change and will continue to reflect the functional office location. We added "C/O" for "care of" prior to the address in "2." in the Licensee title block, to reflect the functional address. Please make sure this is the correct address you want on the license for delivery and billing purposes.
3. We changed License Condition 10.26 by changing three references from HRI to NuFuels.
4. We changed License Condition 9.2 to change the NRC mail stop address from T-8F5 to T-5A10 that reflects an internal NRC office move.

Please let me know if these changes are acceptable so I can continue processing the amendment.

Thanks
