

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

June 19, 2018

ALL AGREEMENT STATES, VERMONT, WYOMING

PUBLICATION OF NUREG-1556, VOLUME 8, REVISION 1, "CONSOLIDATED GUIDANCE ABOUT MATERIALS LICENSES: PROGRAM-SPECIFIC GUIDANCE ABOUT EXEMPT DISTRIBUTION LICENSES" (STC-18-040)

Purpose: To inform the Agreement States, as well as States with pending Agreement State applications, that the Office of Nuclear Material Safety and Safeguards (NMSS) published NUREG-1556, Volume 8, Revision 1, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Exempt Distribution Licenses – Final Report" in June 2018.

Background: The U.S. Nuclear Regulatory Commission (NRC) is revising the licensing guidance in the NUREG-1556 series. The NRC originally published NUREG-1556, Volume 8 in September 1998. The document is intended for use by applicants, licensees, and NRC staff, and is also available to the Agreement States.

Discussion: NUREG-1556, Volume 8, Revision 1, was updated by a working group made up of NRC and Agreement State representatives, to include safety culture, protection of sensitive information and changes in regulatory policies and practices. The volume was also reviewed by a steering committee made up of NRC management and an Agreement State manager. After the steering committee review, the NRC regional offices and NRC legal staff reviewed the document and then NMSS, Division of Materials Safety, Security, State, and Tribal Programs management approved the volume for publication.

Revision 1 of Volume 8 can be found on the NRC's public Web site at:
