SUPPLEMENTARY INFORMATION:

I. Discussion

Section 208 of the Energy Reorganization Act of 1974, as amended (Pub. L. 93-438), defines an “abnormal occurrence” (AO) as an unscheduled incident or event that the NRC determines to be significant from the standpoint of public health or safety. The AO report (ADAMS Accession No. ML18157A051), describes those events that the NRC identified as AOs during FY 2017, based on the criteria defined in Appendix A of the report.

The report describes six events at Agreement State-licensed facilities and five events at an NRC-licensed facilities. All 11 events occurred at medical facilities and are “medical events” as defined in part 35 of title 10 of the *Code of Federal Regulations* (10 CFR).

Agreement States are the 37 U.S. States that currently have entered into formal agreements with the NRC pursuant to Section 274 of the Atomic Energy Act of 1954, as amended (AEA), to regulate certain quantities of AEA-licensed material at facilities located within their borders.

The Federal Reports Elimination and Sunset Act of 1995 (Pub. L. 104-66) requires that AOs be reported to Congress annually. The full report, NUREG-0090, Volume 40, "Report to Congress on Abnormal Occurrences: Fiscal Year 2017," is also available electronically at the NRC's Web site at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/>.

Dated at Rockville, Maryland, this 19th day of June, 2018.

For the Nuclear Regulatory Commission.

A handwritten signature in black ink, appearing to read "Annette Vietti-Cook". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Annette L. Vietti-Cook,
Secretary of the Commission.
