Re: Docket ID NRC-2018-0052

Why are all these high risks being taken in the first place?

For no good reason

whatsoever! Certainly not to benefit

public health, safety, security, or environmental

protection, despite Holtec Inter

national/Eddy-Lea [Counties] Energy Alliance

(Holtec/ELEA),

and nuclear power industry, claims and PR-

spin to the contrary.

Truth be told, it's to transfer

title, liability, costs, and risks, for the highly radioactive

irradiated nuclear fuel, from the companies that generated it, and profited from its

generation, onto the backs of federal taxpayers

(if the U.S. Department of Energy

(DOE)

is stuck paying all the bills – and/or onto the backs of nuclear electricity

ratepayers, if Holtec/ELEA's lobbyists can

finagle access to the monies remaining in

the Nuclear Waste Fund coffers).

That's a pretty big favor to the companies

–in fact,

it's unique in all of industry.

And of course, if Holtec/ELEA can make large profits (at public expense),

“temporarily storing” these highly radioactive wastes (for 40 years, to 120 years,

to

de facto

permanently), without having to shoulder any of the costs, or risk-liabilities,

well, that would work well

for them!

Please [oppose Holtec/ELEA CISF](#).

Thank you.
