Chris Einberg, Deputy Director  
Division of Materials Safety, Security, State  
and Tribal Programs  
Office of Nuclear Material Safety  
and Safeguards  
U.S. Nuclear Regulatory Commission  
T8-E18  
Washington, D.C. 20555-0001

Dear Mr. Einberg,

Enclosed is a copy of the revisions to the proposed Kentucky Radiological Health Rules. The proposed revisions will be made available for public comment on August 1, 2018, with a request for comments by August 30, 2018. We request NRC's comments by August 30, 2018. The proposed regulation changes are identified by underline and strikethrough text and correspond to the following equivalent Code of Federal Regulations:

<b><u>C.F.R</u></b>	<b><u>Title</u></b>	<b><u>State Section</u></b>
10 CFR Part 61	Licensing requirements for land disposal of radioactive waste	902 KAR 100:022
10 CFR Part 33	Specific domestic licenses of broad scope for byproduct material	902 KAR 100:052
10 CFR Part 71	Packaging and transportation of radioactive material	902 KAR 100:070
10 CFR Part 35	Medical use of byproduct material	902 KAR 100:072
10 CFR Part 34	Licenses for industrial radiography and radiation safety requirements for industrial radiographic operators	902 KAR 100:100
10 CFR Part 39	Licenses and radiation safety requirements for well logging	902 KAR 100:142

We believe that adoption of these Code of Federal Regulations satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200.

If you have any questions, please feel free to contact me at (502)564-3700 extension 4181 or Eric Perry at (502)564-3700 extension 4184 or by email at [ericd.perry@ky.gov](mailto:ericd.perry@ky.gov).

Sincerely,

Matthew W. McKinley  
Radiation Health Branch Manager
