Why are all these high risks being taken in the first place?

For no good reason

whatsoever! Certainly not to benefit
public health, safety, security, or environmental
protection, despite Holtec International/Eddy

and nuclear power industry
, claims and PR

spin to the contrary.

Truth be told, it's to transfer
title,

liability, costs, and risks, for the highly radioactive
irradiated nuclear fuel, from the companies that generated it, and profited from its
generation, onto the backs of federal taxpayers
(if the U.S. Department of Energy
(DOE)

is stuck paying all the bills

—

and/or onto the backs of nuclear electricity
ratepayers, if Holtec/ELEA's lobbyists can
finagle access to the monies remaining in
the Nuclear Waste Fund coffers

)

. That's a pretty big favor to the companies

—

in fact,

it's unique in all of industry.

ALL NUCLEAR WASTE, CLEAN UP COSTS AND PROCEDURES MUST BE TAKEN CARE OF AT THE SITE WHERE GENERATED AND BY THE COMPANY RUNNING THE OPERATION AND MAKING MONEY FROM IT.

Dr. Ma

, in December 2013, in hi

s expert witness

comments to the U.S. Nuclear Regulatory Commission's (NRC) Nuclear Waste Confidence/Continued Storage of Spent Nuclear Fuel EIS

(Environmental Impact Statement)

proceeding, calculated that the first 200 years of commercial irradiated nucle

ar fuel storage will cost \$210 to 350 billion (yes, with a B). (See his expert comments at <

legal under the Nuclear Waste Policy Act, as Amended, a.k.a. current law.

The plan you are currently proposing is a HUGE public health risk / threat and will result in charges against you of crimes against humanity. We-the-people are paying you to act on our behalf - NOT FOR THE BENEFIT OF CORPORATIONS. PLEASE DO THE JOB WE ARE PAYING YOU TO DO. TO DO ANYTHING LESS IS DERELICTION OF YOUR SWORN DUTY AND A CRIME AGAINST HUMANITY. THE RESULTS WILL EFFECT ALL LIFE ON THE PLANET, INCLUDING YOU AND THOSE YOU LOVE. YOUR MONEY AND "POWER" CANNOT AND WILL NOT PROTECT YOU.
