SUBJECT: HECOR, INC., CONSENT TO TRANSFER LICENSE, MAIL CONTROL NO.
602759

Dear Mr. del Rio:

By the letter dated March 6, 2018, Tamrio, Inc. requested written consent by the U.S. Nuclear Regulatory Commission (NRC) to a proposed direct transfer of control of the license to Hecor, Inc. From your letter, we understand that this transfer will not result in any change to the location of use, materials, persons using licensed material, or persons responsible for radiation safety at the licensed facility. We further understand that the name will change to Hecor, Inc. who is purchasing the assets of Tamrio, Inc.

Based on the above understandings, as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's safety review of the request, the NRC consents to the proposed transfer. If you have any questions regarding this letter, please contact Betsy Ullrich at (610) 337-5040 or by electronic mail at elizabeth.ullrich@nrc.gov.

Based on the above understandings, the NRC consents to the proposed direct transfer of control of NRC Materials License No. 52-31342-01. Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation in this matter.
