SUBJECT: WESTINGHOUSE ELECTRIC COMPANY - CALENDAR YEAR 2019 INSPECTION
SCHEDULE

Dear Mr. Annacone:

Enclosed is the schedule of inspections to be performed by the U.S. Nuclear Regulatory Commission (NRC) at the Westinghouse Columbia Fuel Fabrication Facility (CFFF) in Hopkins, SC for calendar year 2019. The inspection schedule is provided in advance to minimize the resource impact on your staff and allow for the resolution of any scheduling conflicts and personnel availability issues, well in advance of inspector arrival onsite.

Please note that inspections related to Safeguards are not included in this schedule. In addition, any regional initiative or other reactive inspection is not included. If circumstances arise which cause the NRC inspectors to change the dates of the planned inspections, we will contact you to discuss the change as early as possible. Please contact Tom Vukovinsky at (404) 997-4622 with any questions or concerns you may have regarding this letter or the inspection schedule.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
