RE: 1st and 2nd Half of 2017 Effluent Monitoring Reports, SUA-1473, Docket #40-8905

Dear Mr. Webb:

It has come to Rio Algom Mining LLC's (RAML) attention that both Ambrosia Lake facility's 2017 semi-annual Effluent Monitoring Reports are not in ADAMS and as such have not received an accession number. Both reports were shipped to NRC via FedEx: the first on August 28, 2017 and the second on March 1, 2018. Both reports were also submitted electronically via email to RAML's NRC project manager.

RAML is re-sending these documents to the document control desk at the address below for inclusion into ADAMS.
