Dear Ms. Weidner;

In response to your email and request for additional information regarding the implementation of the Y90 Theraspheres program for the Hospital of Central Connecticut (HOCC):

**The Process For Future Changes to the HOCC TheraSphere Program**

If HOCC chooses to revise the current TheraSphere program, the facility will retain a record of each change and maintain documentation of that change on file for five years. Documentation will include a copy of appropriate website guidance, the old procedure, the new procedure, the effective date of the change, and the signature of HOCC management that reviewed and approved the TheraSphere program change.

Thank you,
